

Cumbrian Cottages Partners with Cumbria Waste Group

Cumbrian Cottages has formed a partnership with Cumbria Waste Group to supply a waste and recycling collection to property owners within the region, in a bid to promote a greener and more eco-friendly holiday experience.

Over 150 property owners in Windermere have already signed up with Cumbria Waste Group, the largest provider of bespoke waste and recycling services in the region.

As a result of enrolling, property owners can access the waste and recycling service offered by Cumbria Waste Group at a reduced rate. Meeting with the aim of the zero waste to landfill philosophy, it prevents the general waste removed from the holiday properties from being disposed to landfill and instead sees it recycled or reclaimed.

Mark Whitehouse, cottages.com Area Manager for Cumbria, said: "We are pleased to have agreed a new partnership with Cumbria Waste Group and to have signed up all of our managed properties in Windermere to its waste and recycling services. Sustainability continues to be high on the agenda and we are keen to support property owners to offer a more eco-friendly holiday option to visitors.

"Whilst we may only be at the beginning of the partnership we hope to roll this service out to all our property owners across Cumbria. We expect most of our owners to move over to Cumbria Waste Group over the next 12-months and to have peace of mind knowing that the vast majority of the waste thrown away at the property is recycled and put to better use."

Mark Wilson from the Cumbria Waste Group, comments: We are very proud to be associated with a company of this quality and ethos towards green credentials. With such a wide coverage throughout Cumbria, we are the only waste company that are able to provide this service. We have worked hard to ensure a seamless change-over to minimise disruption for property owners and will continue to work closely to fulfil all Cumbrian Cottages requirements in the years to come.

Cumbrian Cottages part of the cottages.com brand family, offer a wide range of properties that form part of its Green Scheme, a collection of thousands of holiday cottages that promote a greener and more eco-friendly holiday experience.

Anyone considering starting a holiday let in 2018 or reviewing how to make a better return on investment out of a current holiday let, is invited to get in touch with cottages.com or <http://www.cumbrian-cottages.co.uk/> and benefit from growing demand in the region.
