Transforming the Cottage Industry

Industry first as **cottages.com** launches biggest selection of individually inspected properties across the UK, Ireland, France and Italy

cottages.com is the new website for customers looking to book a cottage holiday. Featuring cottages from a number of different brands, the site offers the biggest choice of high quality cottages with more than 19,000 independently vetted holiday properties across the UK, France, Ireland and Italy.

Offering customers a brand new way to plan and book a cottage holiday, cottages.com is designed to help find the right cottage quickly and easily with optimised search functionality, more filters and more choice across a growing brand portfolio.

Developed by the team behind cottages4you, the site has clearly identifiable feature codes ensuring properties can be selected based on individual customer requirements. **cottages.com** is also home to destination content and local advice to inspire and guide customers to choose their ideal break, as well as their perfect accommodation

Unlike many competitor brands, all English and Scottish properties within the portfolio are annually graded and inspected to Visit England and Visit Scotland standards. The Welsh and Irish cottages are graded to the same exacting standards so holidaymakers can be confident in their chosen cottage. What's more, customer reviews encourage the sharing of hints and tips about the local area.

Nick Rudge at **cottages.com** said: "The market has been in urgent need of a credible go-to place for cottage holidays which offers both the inspiration and choice consumers need. With more than 30 years' experience, we've invested all our knowledge and expertise into creating a brand which is passionate about cottages and cottage holidays.

We know a holiday is not just about where you stay, it's about the experience you have, so we've placed equal importance on providing inspiration and ideas on things to see and do whilst offering the largest selection of inspected cottages across the UK, Ireland, France and Italy."
